

Stereo Amplifier Connector for Inputs and Outputs

Connector Index
Stereo Amplifier Connector A (18P)
Stereo Amplifier Connector B (8P)
Stereo Amplifier Connector C (16P)
Stereo Amplifier Connector D (2P)

Stereo Amplifier Connector A (18P) (female terminals)

Cavity	Terminal Name	Description
A1	GND	Ground for stereo amplifier (G504)
A2	SUB WOOFER+	Outputs sound signal for subwoofer
A3	+B AUDIO AMP	Continuous power source
A4	SUB WOOFER—	Outputs sound signal for subwoofer
A5	FL SPKR+	Outputs sound signal for driver's door speaker
A6	FL SPKR—	Outputs sound signal for driver's door speaker
A7	SATR SP—(N/W IN)	Outputs sound signal for right rear speaker
A8	SATR SP+(N/W IN)	Outputs sound signal for right rear speaker
A9	SATL SP—(N/W IN)	Outputs sound signal for left rear speaker
A10	SATL SP+(N/W IN)	Outputs sound signal for left rear speaker
A11	CTR SPKR+	Outputs sound signal for front center speaker
A12	FR SPKR—	Outputs sound signal for front passenger's door speaker
A13	FR SPKR+	Outputs sound signal for front passenger's door speaker
A14	FL TWEETER+	Outputs sound signal for left front tweeter
A15	FL TWEETER—	Outputs sound signal for left front tweeter
A16	FR TWEETER+	Outputs sound signal for right front tweeter
A17	FR TWEETER—	Outputs sound signal for right front tweeter
A18	CTR SPKR—	Outputs sound signal for front center speaker

Stereo Amplifier Connector B (8P) (female terminals)

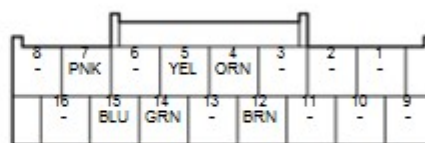

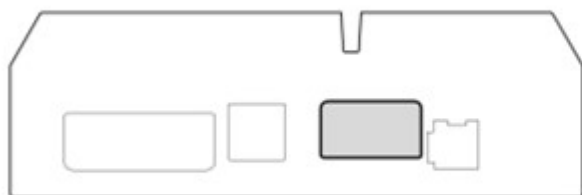

Cavity	Terminal Name	Description
B1	Not used	----
B2	Not used	----
B3	Not used	----
B4	Not used	----
B5	RR TWEETER+ ^{*1} SATR TWEETER+ ^{*2}	Outputs sound signal for right rear tweeter
B6	RR TWEETER— ^{*1} SATR TWEETER— ^{*2}	Outputs sound signal for right rear tweeter
B7	RL TWEETER+ ^{*1} SATL TWEETER+ ^{*2}	Outputs sound signal for left rear tweeter
B8	RL TWEETER— ^{*1} SATL TWEETER— ^{*2}	Outputs sound signal for left rear tweeter

*1: USA and Canada production

*2: Japan production

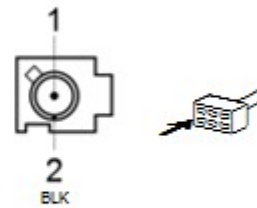

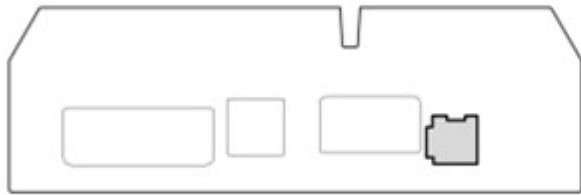

Stereo Amplifier Connector C (16P) (female terminals)

Cavity	Terminal Name	Description
C1	Not used	----
C2	Not used	----
C3	Not used	----
C4	AUX BEEP	Inputs system beep signal
C5	AUX NAVI GND	Basis ground for terminals No. 4 and No. 12
C6	Not used	----
C7	RS485—	Communication signal for audio-navigation unit or audio unit
C8	Not used	----

Cavity	Terminal Name	Description
C9	Not used	----

Cavity	Terminal Name	Description
C10	Not used	----
C11	Not used	----
C12	AUX NAVI	Inputs sound signal for voice guidance and Voice Recognition (VR) prompts
C13	Not used	----
C14	SWD+B	Inputs signal for stereo amplifier switching on/off
C15	RS485+	Communication signal for audio-navigation unit or audio unit
C16	Not used	----

Stereo Amplifier Connector D (2P) (female terminals)

Cavity	Terminal Name	Description
D1	SPDIF2 SIG	Communication signal for audio-navigation unit or audio unit
D2	SPDIF2 SH	Shield for terminal No. 1
